## SePRO Corporation Grows Rocky Mount Footprint

SePRO, an Indiana corporation with North Carolina locations in Whitakers and Rocky Mount has announced a \$3.5 million dollar addition to its Rocky Mount campus. Tyler Koschnick, President, says the company completed a significant acquisition and is relocating production of its newly acquired products from Georgia to its plant site on Atlantic Avenue in Rocky Mount. The additional investment will provide facilities to produce products that improve water quality, control harmful and toxic algal blooms and control invasive aquatic weeds. With this new investment, SePRO anticipates adding 20 employees to its current staff of 12 in Rocky Mount.

Norris Tolson, President, Carolinas Gateway Partnership, says, “We are delighted with this SePRO investment in Rocky Mount. It’s always wonderful when our local companies grow and prosper here”.

SePRO, founded in 1994 by William Culpepper, provides plant protection, plant management products and services that meets the unique needs of its customer base. The company acquires, develops, manufactures, and markets a wide variety of value-added products in the aquatic, surface water and horticulture markets. SePRO is extremely active in identifying and correcting Harmful Algal Blooms throughout the United States. In addition to its Rocky Mount facility, SePRO operates a 410-acre Research and Technology Campus in Whitakers, NC.

Bill Whitford manages the North Carolina operations for SePRO and says that he finds it easy to do business in this community. He is already in the hiring process for the new operations. For employment opportunities please contact SePRO at [HR@sepro.com](mailto:HR@sepro.com).
